**Technical Notes**

Spoke with Sgt. Det. Foley at 9:45am. He had just arrived to the scene and was just starting to process the scene. I let him know we had a team headed to a scene locally and he said that he was not in a rush and they did need time to take photographs. I took his direct line and informed him I would have the team call with an ETA when they cleared the scene. JL 5.28.19
